

Default status

Remote can directly control most Philips, Samsung, Hisense and LG TV sets

Manual code input

- Turn on the TV power;
- Find the codes of your TV from the code list section;
- Press & hold the 2 keys "MENU"  + "FF(>>)"  for about 5 seconds until the bright LED light turns on;
- Input the 4-digit code for the TV. Each time a number is pressed, the LED will flash once. If the code is valid, the LED will turn off; if the code is invalid, the LED will flash 3 times and turn off, please try it again;
- Then check if the remote can control your device correctly. If it does not, please try another code under the brand. If none of the codes under this brand work, please refer to the Code Searching instructions below.

- Record down the code for your future use.

Notes: If no key is pressed within 30 seconds the remote control will leave the set up mode automatically.

Code searching

If you have tried all the codes under the brand name and the remote control still does not work (i.e. the appliance can not be controlled by the remote control) or you cannot find the brand in the code list, you can use code search to find out the correct code.

- Turn on the TV power;
- Press & hold the 2 keys "MENU"  + "FF(>>)"  for about 5 seconds until the bright LED light turns on;
- Point the remote control to the TV, and then press and hold the "Mute" key
- Release the "Mute" key when the Mute symbol appears on the TV, then check if the other keys can work or not; if most keys cannot work, please repeat step 1)-3) to find the most suitable code;

Notes: If no key is pressed within 30 seconds the remote control will leave the set up mode automatically, and the LED turns off & returns to the code status before setting.

TV (including LCD, LED and Plasma)
